SUMMARY REPORT

Overview

This report summarizes the testing performed on the demo website:
 (URL : https://productivity-suit.vercel.app/) The testing covered **functionality**, **usability**, and **performance aspects**, aiming to identify bugs and improvement opportunities.

Testing highlights
- test cases executed : 9
- Passed : 1
- Failed : 8
- Defects reported : 5
- Severity levels : high (2) | medium (2) | low (1)

Major Issues Found

- **Search Functionality** – Does not return expected results when filtering with letters like "A".
- **Create Team Button** – Not functional.
- **Profile Picture Upload** – No update option.

- **No "My Account" Page** – Missing essential user dashboard.

Suggestions for Improvement

1. **Improve UI Clarity**

   ○ Font color and highlight color are too similar — consider increasing contrast for better visibility.

2. **Fix Core Functionalities**

   ○ Ensure buttons like "Create Team" are working.

- Implement the ability to upload/update profile photos.

3. **Search Algorithm**

   - Improve search logic to support keyword filtering (e.g., by first letter).

4. **Add Essential Features**

   - Include a **"My Account"** section for user settings and profile management.

5. **User-Friendly Navigation**

   - Simplify home page structure; currently feels confusing.

Conclusion

The productivity suits website shows several features but requires several enhancements to meet usability and functional standards .implementing the above suggestions will significantly improve user experience and performance
